## GOAT HEALTH MANAGEMENT

### Alltech Goat Health Management

This programme consists of natural, nutritional solutions tailored to address challenges impacting on modern goat production and profitability.

Our goal is to give the customer an advantage in this competitive marketplace across all channels, from the quality of our products to our cutting edge research.

Alltech understands that by improving on farm feed efficiency and by reducing profit robbing diseases we can help farmers increase their profitability in a sustainable way.

#### Recommended feed rate:

Kids: 1 – 2g /head / day

Milking/Lactating: 5g /head / day

## ALLTECH GOAT PACK<sup>®</sup>

### Invest in your feed and intestinal health

Alltech<sup>®</sup> Goat Pack (NZ) has been specifically designed to be fed to both milking and young goats. This pack contains Alltech solutions, backed by over 30 years of research. The Alltech Goat Pack (NZ) is a combination of Bioplex<sup>®</sup> organic trace minerals, probiotics, prebiotics and vitamins.

**Bioplex<sup>®</sup>** - Alltech's range of organic trace minerals provides mineral nutrition in a form as close to nature as possible. Bioplex trace minerals are better able to meet the higher nutrient needs of modern livestock for rapid growth, maximum reproductive performance and animal health.

**Yea-Sacc<sup>®</sup> TS** – Is a live yeast culture based on *saccharomyces cerevisiae* specifically selected for its influence on animal performance.

**Actigen<sup>®</sup>** - Provides a natural, cost-effective means of maintaining gut health and integrity to support overall performance.

**Vitamin Pack** – Added vitamins to support goats fed on conserved forages indoors.
