10 December 2021

Dear Ben,

Re: Alltech Feed Additive Validation of Opinion project delays

Due to increased awareness of sustainability and the global climate emergency, the Carbon Trust is experiencing significant increased demand. Accordingly we have taken the decision to reschedule your Feed Additive Validation of Opinion project.

We recognise that Alltech is not at fault and Alltech is ready to go through the Feed Additive Validation of Opinion and we are therefore happy to provide you with an extension letter in the interim.

The project start date will now be postponed from January to May with a preliminary closure date of July. We apologise for any inconvenience this causes you and your customers.

We appreciate your understanding and patience and look forward to working with you on this project.

Yours sincerely

Hugh Jones

Managing Director
